

## Farmageddon: The True Cost of Cheap Meat (Paperback)

Filesize: 8.84 MB

### ***Reviews***

*It is an incredible ebook that we actually have ever study. This is certainly for all those who statte that there had not been a worthy of looking at. I am just pleased to inform you that this is the very best publication i have got go through during my individual daily life and can be he best ebook for possibly.*

*(Clarabelle Marvin)*

## FARMAGEDDON: THE TRUE COST OF CHEAP MEAT (PAPERBACK)

Bloomsbury Publishing PLC, United Kingdom, 2014. Paperback. Book Condition: New. 232 x 154 mm. Language: English . Brand New Book. Farm animals have been disappearing from our fields as the production of food has become a global industry. We no longer know for certain what is entering the food chain and what we are eating - as the UK horsemeat scandal demonstrated. We are reaching a tipping point as the farming revolution threatens our countryside, health and the quality of our food wherever we live in the world. \* Our health is under threat: half of all antibiotics used worldwide (rising to 80 per cent in US) are routinely given to industrially farmed animals, contributing to the emergence of deadly antibiotic-resistant superbugs \* Wildlife is being systematically destroyed: bees are now trucked across the States (and even airfreighted from Australia) to pollinate the fruit trees in the vast orchards of California, where a chemical assault has decimated the wild insect population \* Cereals that could feed billions of people are being given to animals: soya and grain that could nourish the world's poorest, are now grown increasingly as animal fodder Farmageddon is a fascinating and terrifying investigative journey behind the closed doors of a runaway industry across the world - from the UK, Europe and the USA, to China, Argentina, Peru and Mexico. It is both a wake-up call to change our current food production and eating practices and an attempt to find a way to a better farming future.
