Brand New Book ***** Print on Demand *****.Excerpt from Annual Report of the Superintendent: December 1950 As we review the accomplishments of the Boston public schools during the mid-century year of 1950, we realize anew how effective have been the efforts of conscientious public school personnel and the support and encouragement of understanding citizens in establishing and carrying on the great educational tradition of our city. Beginning with the first Latin grammar school, Boston has established an impressive list of firsts, of which the first English high school, the first girls high school, and the first efforts in vocational guidance are but a few. In addition to initiating such advances as these, the Boston public schools have always been alert to adopt new practices and procedures of proven worth. Thus in a traditional spirit of progress, the Boston public schools have moved forward soundly and steadily through the years to meet the changing and developing needs of the children of our city. The purpose of this report is to consider the progressive activities of the past few years and to review the major forward steps that have been taken during the year ending August 31, 1950. Of necessity, then, much remarkably fine work which is carried on regularly throughout the system will have only incidental mention. Yet it must be understood that all progress rests firmly on the ordinary routine and stems from it. New Plan of Central Administration Advances in many areas have been accelerated by the new plan of Central Administration which has been completely operative for the first time this year.
