Spectral analysis method - Second Edition

By PAN TIE YING. ZHANG YU LAN. SU KE MAN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 274 Publisher: East China Polytechnic University Pub. Date :2009-7-1. MS. UV. IR and NMR spectroscopic methods such as structural identification of organic compounds is the most important method. widely used in organic synthesis. stone; by the chemical industry. biochemistry. pharmacology. pharmacology. toxicology. clinical medicine and other fields. Book is a comprehensive exposition of the MS. UV. IR. Raman spectroscopy and nuclear magnetic resonance spectroscopy in organic compounds and the basic principles of structural analysis applications. The book also incorporated into the spectral domain of the more mature and versatile new technologies. such as electrospray ionization mass spectrometry. 2D NMR. etc. and a selection of representative spectrogram. examples and exercises. and a large number of spectral data to enhance the reader with spectral methods to solve practical problems. Write this book seeks to avoid the tedious mathematical derivation. and focus on the identification of spectral methods in the structure and all kinds of useful spectral information (spectrogram) and the relationship between molecular structure. Therefore. user-friendly. with a strong practical are the main features of the book. This book...

Reviews

I actually began looking at this pdf. It is actually rally interesting throug reading time period. You will not really feel monotony at at any time of your respective time (that's what catalogues are for concerning if you ask me).

-- **Brayan Mohr Sr.**

A superior quality publication along with the font used was fascinating to learn. I have read through and i also am certain that i am going to going to go through yet again again in the future. Your life period will likely be enhance the instant you total reading this publication.

-- **Donnie Rice**
