By Thomas Levenson

Random House LCC US Aug 2016, 2016. Taschenbuch. Book Condition: Neu. Neuware - The captivating, all-but-forgotten story of Isaac Newton, Albert Einstein, and the search for a planet that never existed. For more than fifty years, the world's top scientists searched for the 'missing' planet Vulcan, whose existence was mandated by Isaac Newton's theories of gravity. Le Verrier attempted to surpass that triumph by predicting the existence of yet another planet in our solar system, Vulcan. It took Albert Einstein to discern that the mystery of the missing planet was a problem not of measurements or math but of Newton's theory of gravity itself....
