The main book is perhaps the first attempt in the English language that collects all the authentic hadiths on each aspect of the performance of the salah - be that a physical movement or what is recited in it - then groups them together, allowing the reader to see the exact practice of the Prophet (s). Each aspect was dealt with in a thorough manner without any preconceived opinion so that the reader is satisfied that the conclusion arrived on a given topic is what becomes naturally evident from the comprehensive evidence that is presented. Additionally, having all the sahih hadiths in front of him/her helps the reader to see which actions in the salah may be done in one most authentic way, which ones in multiple ways, and when there are choices, which option was more commonly practiced by the Prophet (s). The main book is intended for the serious students who seek in-depth evidence for each topic while the Summary Edition is a simple-to-read small book that is designed for the common Muslims who only want to know the final conclusions with minimal supporting evidence. ----- REVIEWS ON THE COMPLETE SET ----- For those who . desire to know how to pray based on the Prophetic example, this book will provide them with that guideline and the confidence that they will be making salah in the way...
