COMBINATORIAL PATTERN MATCHING: 19TH ANNUAL SYMPOSIUM, CPM 2008 PISA, ITALY, JUNE 18-20, 2008, PROCEEDINGS

DOWNLOAD

Springer. Paperback. Book Condition: New. Paperback. 317 pages. Dimensions: 9.1in. x 6.1in. x 0.8in. The papers contained in this volume were presented at the 19th Annual Symposium on Combinatorial Pattern Matching (CPM 2008) held at the University of Pisa, Italy, June 18-20, 2008. All the papers presented at the conference are original research contributions on computational pattern matching and analysis. They were selected from 78 submissions. Each submission was reviewed by at least three reviewers. The committee decided to accept 25 papers. The programme also includes three invited talks by Daniel M. Guseld from the University of California, Davis, USA, J. Ian Munro from the University of Waterloo, Canada, and Prabhakar Raghavan from Yahoo! Research, USA. The objective of the annual CPM meetings is to provide an international forum for research in combinatorial pattern matching and related applications. It addresses issues of searching and matching strings and more complicated patterns such as trees, regular expressions, graphs, point sets, and arrays. The goal is to derive non-trivial combinatorial properties of such structures and to exploit these properties in order to either achieve superior performance for the corresponding computational problems or pinpoint conditions under which searches cannot be performed efficiently. The meeting also deals with problems in computational biology, data compression, data mining, coding, information retrieval, natural language processing and pattern recognition. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
